Optimal ventilation

An optimal stable environment for your livestock requires optimal ventilation. With the new and innovative Bo-Air Touch climate computer, you can control your side curtains effectively and realize the ideal flow of fresh air in the house. An optional weather station ensures optimal weather-dependent operation of your shed curtains. In addition, with the App on your smartphone, you always have insight into the current stable situation.

SYSTEM FEATURES BO-AIR PL

SPECIFICATIONS BO-AIR PL

STANDARD OPTIONS

Analog inputs	6
Analog outputs	2
Digital inputs	2
Relay outputs	3
Alarm output	✓
Ethernet (RJ45) connection	✓
Power supply (in)	110Vac - 240Vac 50/60Hz
Power supply (out)	24Vdc / 12Vdc
Operating temperature	0 ... 45°C
Approval	CE
Housing	315 x 285 x 140mm (WxHxD) plastic ABS (IP54)

WEATHER STATION (optional)

Adding a weather station to your curtain controller enables you to instantly respond to current weather conditions and pro-actively adjust your curtain positions to ensure an optimum climate! The weather station data can optionally be shared with multiple controllers.

FARMCONNECT (future optional)

The FarmConnect farm software collects all current and historical data of all control computers on your farm, combines this data, and then presents it in clear overviews, graphs and tables. FarmConnect gives you access to your farm data. Wherever you are, you are always connected to your company so that you can intervene immediately if necessary.
